

ATTN: FCC,

We, the American public are sick and tired of our Government allowing the Radio industry to use our airwaves to cram their multi-Billion dollar commercial conveyance down our throats, as if it were their private domain. They do not have any "right" to dictate who may and who may not provide information to the American Public. I do not care how much money "Big Radio" contributes to its "Washington Darlings", I refuse to allow a select group of "big Business broadcasters" from dictating policy about who can and can't inform the public. Let it be known that I am vehemently against the NAB's petition 04-160.

It is not the job of the FCC to protect the NAB from competition and provide them a monopoly.
